

Plans for Improving Academic Programs – 2017

Douglas Education Center (DEC) is currently working on implementing or considering the following items in order to improve its academic programs:

1. Incorporate supplementary materials into the courses of George A. Romero's Filmmaking Program with proprietary video content created by DEC and George A. Romero.
2. Explore the options available to DEC to expand its Esthetics lab/classroom area.
3. Consider adding additional coursework for digital sculpting (Zbrush) into Tom Savini's Special Make-Up Effects Program.
4. Enhance the curricula in the Graphic Design & Web Program, including a change to the program name.
