The DEC Story

LEARN BY DOING.
EARN FOR LIFE.

A Legacy of Opportunity Since 1904

For more than 120 years, Douglas Education Center (DEC) has been committed to helping students build meaningful careers by providing quality, career-focused education. Since its founding in 1904, the institution has evolved to meet the changing needs of students, employers, and the workforce, while remaining dedicated to its guiding belief: education empowers people to pursue their goals and create brighter futures.

Originally established as a business and secretarial school, DEC continually adapted its programs to reflect emerging industries and employment opportunities. In 1992, the Medical Assistant Program became the school's first expansion beyond business education.

As the new millennium approached, DEC entered the creative arts with the launch of the Tom Savini Special Make-Up Effects Program in 2000. Under the guidance of legendary special effects artist Tom Savini, the program quickly earned national recognition and has attracted students from all 50 states and numerous countries around the world. Today, it remains one of DEC's most distinguished and sought-after programs.

In 2003, DEC expanded further with the opening of The Cosmetology Academy, offering comprehensive training in Cosmetology, Esthetics and Nail Technology. As demand within the beauty and wellness industries grew, the school introduced the Massage Therapy Program in 2019 and later launched the Advanced Cosmetic Techniques Program in 2023, creating even more opportunities for students pursuing careers in these fields.

DEC continued to expand its creative offerings in 2008 with the launch of The Factory Digital Filmmaking Program. In 2016, the program was renamed George A. Romero's Filmmaking Program after the renowned filmmaker joined as its signator, further strengthening DEC's reputation in film education.

Responding to workforce demands, DEC entered the skilled trades sector in 2013 by introducing programs focused on Commercial Driver's License (CDL) training and Heavy Equipment operation. In 2026, the institution added Residential and Commercial Electrician and Heating, Ventilation, Air Conditioning, and Refrigeration (HVACR) programs, broadening career pathways for students interested in the trades.

What began as a small business school in a single building has grown into a thriving educational institution spanning all throughout Monessen. Today, Douglas Education Center continues to build on its proud tradition of innovation and student success, providing hands-on training, industry-relevant education, and opportunities that help students turn their dreams into rewarding careers.

HERE to HELP

At DEC, we are dedicated to helping students make the most of their experience. We are committed to fostering a welcoming, inclusive community where every student feels valued, supported, and empowered.. Our goal is to create an environment where you can thrive academically, professionally, and personally.

Through a variety of programs, services, and campus activities, we provide opportunities to build meaningful connections, explore new interests, develop valuable skills, and create lasting memories. We strive to cultivate a sense of belonging and community that makes DEC feel like home, both during your time here and beyond.

STUDENT SERVICES COMMITTEE

The Student Services Committee serves as a key resource and advocate for students, acting as a bridge between students and administration. The committee provides information, guidance, and support related to campus life, academic resources, special programs, disability services, student organizations, publications, and personal or academic concerns.

College is an exciting time of growth and independence, but it can also come with challenges along the way. When obstacles arise, you do not have to navigate them alone. The Student Services Committee is here to support you, connect you with resources, and help you overcome barriers so you can achieve your goals and make the most of your educational journey.

A crisis can range from feeling lonely and needing to talk to thoughts of suicide. Stress and problems-both large and small-fill each of our lives and we all have moments of crisis. No matter how big or small these problems seem, it helps to talk with someone. Crisis Center Hotlines provide counseling and mental health support for individuals and families through telephone hotlines, face-to-face meetings and temporary housing assistance.

Each county has their own Crisis Center Hotline that is available to residents of that county. ***Douglas Education Center is located in Westmoreland County and its crisis center resources are available without charge to our out-of-state students who are temporarily residing here in Westmoreland County***. Centers of Excellence

Centers of Excellence help ensure that people with opioid-related substance use disorders stay engaged in treatment to receive follow-up care and are supported within their communities. The centers coordinate care for people utilizing a team-based approach that is focused on treating the "whole person," with the explicit goal of integrating behavioral health and primary care.
